TIME TESTED... BUILDER APPROVED

SUSTAINABLE RESOURCE

RealCorner™

RealCorner™ is the seamless one piece solution for your inside/outside corner applications. RealCorner™ offers a cost saving alternative to job-site corner assembly by eliminating the need to join two separate pieces and caulk the center seam. Because of its unique design, you get a high quality corner that has great curb appeal and a guaranteed joint. RealCorner™ comes primed on all sides with our proprietary ultra-low VOC Hybrid Alkyd Emulsion™ primer (HAE™). RealCorner™ products will provide the perfect one piece corner to complement any exterior cladding, including fiber cement, wood, brick, composites or hardboard.

COATING TECHNOLOGY

RealCorner™ products are coated with our exclusive Hybrid Alkyd Emulsion™ (HAE™). HAE™ incorporates the proven polymer technology of our original alkyd-oil coating while providing the environmental benefits of water. Combined with Borax for mold resistance and greater long-term appearance, our coating is the most advanced in the exterior trim and fascia market.

Design Flexibility

- Seamless Design
- Multiple Profiles
- Easy Application
- Inside Corner Application
- Compliments Any Siding

Warranty

RealCorner™ is backed by a no-nonsense RealWood™ warranty. The RealCorner™ warranty gives you the security and trust you need when making your buying decision. For a copy of the warranty program please visit our web site.

always there, naturally

Features and Benefits

Multiple Lengths	Available in lengths of 8', 10' & 12' to lower your job-site waste and reduce joints which lowers cost and labor.
Coated all 6 Sides	Hybrid Alkyd Emulsion™ is flood coated on all 6 sides, offering superior protection against Mother Nature.
Simple Installation	Builders do not need to use special tools or require special training.
Seamless Design	Save time by eliminating the need to build a corner on-site and caulk the center seam.
Environmentally Friendly	Unlike plastic and cement trim products, RealCorner™ is manufactured from renewable resources.

Manufacturing Process

Our custom process allows us to utilize short length high grade fiber, crafting an environmentally sustainable product. Our products are coated using specially designed machines to provide RealCorner™ with the optimal amount of primer coverage to ensure long-term performance in the field. Hand packaged and wrapped with recyclable lumber wrap, we maintain quality control throughout the entire manufacturing process.

Extended Warranties

National paint and sealant manufacturers have tested and approved RealCorner™ for use with their products and offer extended top-coat warranties when their coatings are used with RealCorner™. Also available is RealCorner™ CG (ColorGuard™ Coating System). These warranties will extend top-coat protection up to 25 years. Visit www.woodtone.com for a list of our paint and sealant partners.

Installation

Simple installation practices make RealCorner™ the preferred choice for siding contractors and builders alike. Traditional tools such as saws, hammers and nails are all you need. As with any exterior building product, it is important to protect RealCorner™ prior to installation by keeping it covered and off the ground. Adherence to local building codes and following our installation instructions will result in product performance that you can trust. View our full installation instructions at www.woodtone.com.

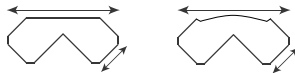

Availability

RealCorner™ is readily available throughout the United States and Canada through building material dealers. For multi-family jobs and large scale projects we can deliver direct to the job-site. For a dealer near you, please give us a call.
