TIME TESTED... BUILDER APPROVED

SUSTAINABLE RESOURCE

RealSide™

RealSide™ is what builders and architects want: real wood siding that is made to last and look great for years. RealSide™ has it all: the beauty of real wood, the lasting security of factory applied coating, and a choice of various profiles to suit your project. With RealSide™, wood siding can be low maintenance and provide unmatched curb appeal. RealSide™ comes primed with our ultra low VOC Hybrid Alkyd Emulsion™ primer, or with our enhanced RealSide™ CG ColorGuard™ Coating System. Available in any color with a warranty package up to 25 years, RealSide™ is your real wood siding solution.

COATING TECHNOLOGY

RealSide™ products are coated with our exclusive Hybrid Alkyd Emulsion™ (HAE™). HAE™ incorporates the proven polymer technology of our original alkyd-oil coating while providing the environmental benefits of water. Combined with Borax for mold resistance and greater long-term appearance, our coating is the most advanced in the exterior building market.

Design Flexibility

- Multiple Patterns
- Unlimited Color Choices
- Trim System to Match
 - RealTrim™
 - RealPost™
 - RealCorner™
 - RealSill™

RealWood™ Warranty

RealSide™ is backed by a no-nonsense RealWood™ warranty against rot. Additional warranties are available with RealSide™ CG ColorGuard™ Coating System. For a copy of the warranty program please visit our web site.

always there, naturally

Features and Benefits

Long Lengths and Light Weight	Speeds installation and reduces waste.
Coated all 6 Sides	Hybrid Alkyd Emulsion™ is flood coated on all 6 six sides, offering superior protection against Mother Nature.
Simple Installation	Builders do not need to use special tools or require special training.
Kiln Dried	Sophisticated drying process to 12% for maximum stability.
Environmentally Friendly	Unlike plastic and cement based siding products, RealSide™ is manufactured from renewable resources.

Manufacturing Process

We hand select our products to provide you an appearance grade siding that delivers the dependability and quality that buyers expect. Our products are coated using specially designed machines to provide RealSide™ with the optimal amount of primer coverage to ensure long-term performance in the field. Hand packaged and wrapped with recyclable lumber wrap, we maintain quality control throughout the entire manufacturing process.

Extended Warranties

National paint and sealant manufacturers have tested and approved RealSide™ for use with their products and offer extended top-coat warranties when their coatings are used with RealSide™. Also available is RealSide™ CG (ColorGuard™ Coating System). These warranties will extend top-coat protection up to 25 years. Visit www.woodtone.com for a list of our paint and sealant partners.

Installation

Simple installation practices make RealSide™ the preferred choice for siding contractors, and builders alike. Traditional tools such as saws, hammers and nails are all you need. As with any siding product, it is important to protect RealSide™ prior to installation by keeping it covered and off the ground. Adherence to local building codes and following our installation instructions will result in product performance that you can trust. Our full installation instructions are available at www.woodtone.com.

Availability

RealSide™ is readily available throughout the United States and Canada through building material dealers. For multi-family jobs and large scale projects we can deliver direct to the job-site. For a dealer near you, please give us a call.
