

# REALSILL™ YOUR NATURAL TRIM CHOICE

REALSILL™  
BY WOODTONE

## COATING TECHNOLOGY

RealSill™ products are coated with our exclusive Hybrid Alkyd Emulsion™ (HAE™). HAE™ incorporates the proven polymer technology of our original alkyd-oil coating while providing the environmental benefits of water. Combined with Borax for mold resistance and greater long-term appearance, our coating is the most advanced in the exterior trim and fascia market.

## RealSill™

RealSill™ is a primed one-piece window sill solution that offers quick and easy installation. RealSill™ is manufactured from hand selected, tight grain, kiln dried Western Canadian SPF, a substrate recognized for both stability and environmental sustainability. RealSill™ offers traditional craftsman style curb appeal while providing unmatched protection from Mother Nature. Our machined RealSill™ provides a precise profile that adds charm and quality and prevents on-site milling which lowers labor costs. RealSill is primed with our proprietary ultra-low VOC Hybrid Alkyd Emulsion™ primer (HAE™).

## Design Flexibility

- Enhance Curb Appeal
- One Step Installation
- Multiple Widths
- Compliments Any Siding

## RealWood™ Warranty

RealSill™ is backed by a no-nonsense RealWood™ warranty against rot. The RealWood™ warranty gives you the security and trust you need when making your buying decision. For a copy of the warranty program please visit our web site.

WOODTONE™

## Features and Benefits

<b>Pre-Cut Drip Edge</b>	Our pre-cut drip edge saves installation time and limits water intrusion.
<b>Coated all 6 Sides</b>	Hybrid Alkyd Emulsion™ is flood coated on all 6 six sides, offering superior protection against Mother Nature.
<b>Simple Installation</b>	Builders do not need to use special tools, or require special training.
<b>Consistent Finish</b>	Factory milling ensures uniform appearance and reduces on-site costs.
<b>Environmentally Friendly</b>	Unlike plastic and cement based products, RealSill™ is manufactured from renewable resources.

## Manufacturing Process

We hand select our products to provide you an appearance grade window sill that delivers the curb appeal and quality that buyers expect. Our products are coated using specially designed machines to provide RealSill™ with the optimal amount of primer coverage to ensure long-term performance in the field. Hand packaged and wrapped with recyclable lumber wrap, we maintain quality control throughout the entire manufacturing process.

## Extended Warranties

National paint and sealant manufacturers have tested and approved RealSill™ for use with their products and offer extended top-coat warranties when their coatings are used with RealSill™. Also available is RealSill™ CG (ColorGuard™ Coating System). These warranties will extend top-coat protection up to 25 years. Visit [www.woodtone.com](http://www.woodtone.com) for a list of our paint and sealant partners.

## Installation

Simple installation makes RealSill™ the preferred choice for framers, siding contractors, and builders alike. Traditional tools such as saws, hammers, and nails are all you need. As with any trim product, it is important to protect RealSill™ prior to installation by keeping it covered and off the ground. Adherence to local building codes and following our installation instructions will result in product performance you can trust. Our full installation instructions are available at [www.woodtone.com](http://www.woodtone.com).

## Availability

RealSill™ is readily available throughout the United States and Canada through building material dealers. For multi-family jobs and large scale projects we can deliver direct to the job-site. For a dealer near you, please give us a call.
